

TUBULAR PVC MATTING

USES

- Great for Wet areas, Showers, Workshops, Bars, Pick up tray floor liners.
- Slip Resistant Surface
- Anti Fatigue
- Insulating
- Durable , Hygienic mildew Resistant, won't Split or Chip
- Oil, Grease, Acid and Alkali Resistant.
- Easily Custom cut for your Requirements.

Comes In a Range of Colours

- Grey
- Blue
- Black
- Green
- Red
- Brown
- Orange

Constructed Of Hollow 3MM PVC Tubing, Total Thickness 10mm,

PRODUCT SPECIFICATIONS

Dimensions: 910mm Wide x Either 6M or 12M Rolls

Material Weight: 73 Warp = 3.75Kg/Lm and 50 Warp = 2.57 Kg

Shore Hardness: A63

Specific Gravity: 1.24

Tensile Strength: 139Kg/Cm

100% Modulus Elongation: 53Kg/Cm

Elongation: 410%

Temperature Effect: Flexible from -10°C +100°C

Flammability: This material does not support combustion, being self extinguishing on removal of flame; gases evolved on flame application are predominately HCl and CO

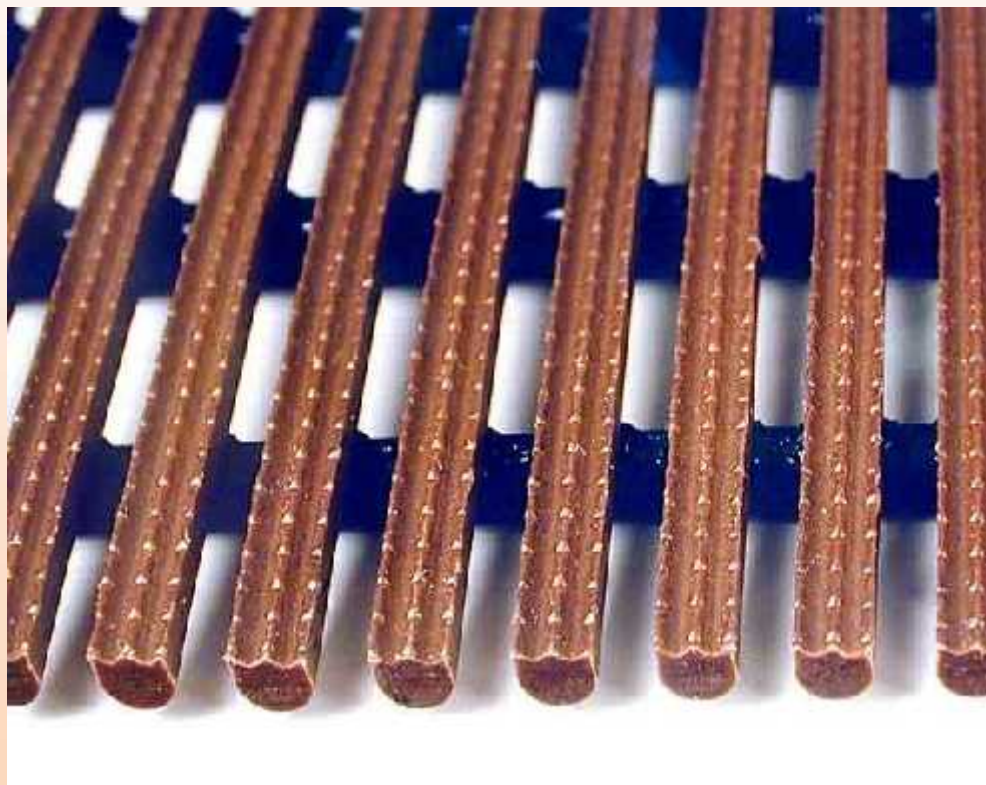

Cutting: Use shears or Knife Blade and straight edge

Joining: Easily joined by the use of joiners (simply Clip adjoining warps using this joiner block, or cut back the warps and join the wefts)

Note: In weaving the **weft** is the term for the yarn which is drawn through the **warp** yarns to create cloth. Warp is the lengthwise or longitudinal thread in a roll, while weft is the crossways thread.

SUPPA GRIPPA MATTING

USES

Marine Vessels, Wharves, Vehicles, Golf Clubs, Building Entry Point, Army Barracks, Commercial Kitchens, Mining Crib Rooms, Chemical Plants, Garages, Machine Shops, Power Stations, Breweries, Laundries, Etc. Also Protects floors Against Damage from Spiked or Sprigged Boots, Keep a piece in the 4WD to Escape Boggy Ground.

Colour Range

- **Dark Blue**
- **Dark Brown**
- **Olive Green**
- **Grey**
- **Orange**
- **Red**
- **Safety Black and Yellow**
